

IS IT TIME FOR A CHANGE?

- Are you or a loved one a survivor of sexual violence?
- Frustrated by the attitudes of many people in our society regarding sexual assault?
- Dissatisfied with the current laws regarding sexual violence?
- Think that state and local anti-rape organizations should receive more funding?
- Interested in joining an advocacy group that will create a grassroots organization to provide emotional and legal support for sexual violence survivors while connecting existing organizations throughout Indiana?
- Is it time for a change in Indiana's attitude toward sexual violence?

If you want to join in the fight against sexual violence, please meet with Indiana Coalition Against Sexual Assault to address these urgent issues. You are invited to attend INCASA's first official meeting of our statewide advocacy program. We are interested in creating a grassroots organization made up of survivors and their loved ones. **If you have had power taken away from you through sexual violence, here is your chance to regain control!** Join with us as we discuss various ways to create support groups, educate the public about sexual violence, and put an end to the current culture of sexual violence that affects each of us daily. We encourage you to attend and bring along any questions, comments, or insights you may have. We are in the very beginning stages of this program and look forward to developing a strong and diverse group of individuals and organizations committed to eliminating sexual violence.
